Introducción a Hyperledger Caliper para Hyperledger Fabric

Contenido

- Arquitectura de Caliper
- Demo
- Cierre del curso

SUT = System under test (Sistema bajo prueba)

Hyperledger Fabric

Hyperledger Besu & Ethereum

Hyperledger Burrow

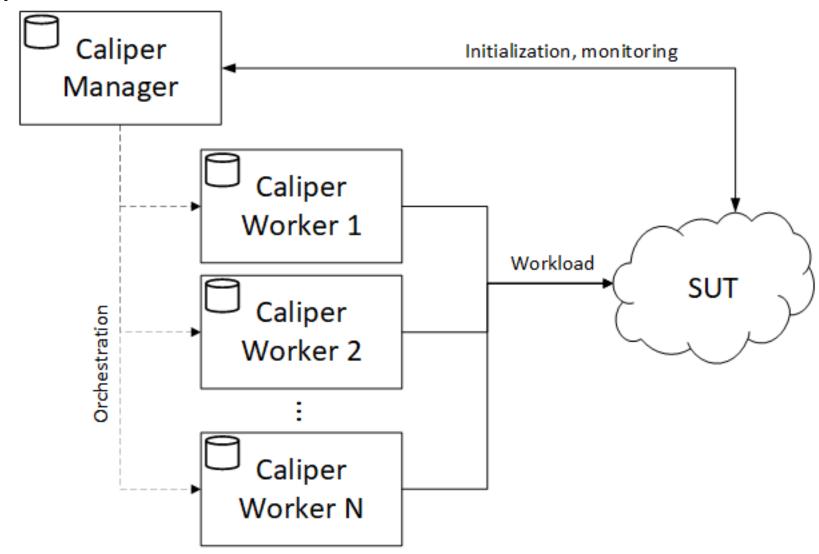

Hyperledger Iroha

Hyperledger Sawtooth

FISCO BCOS

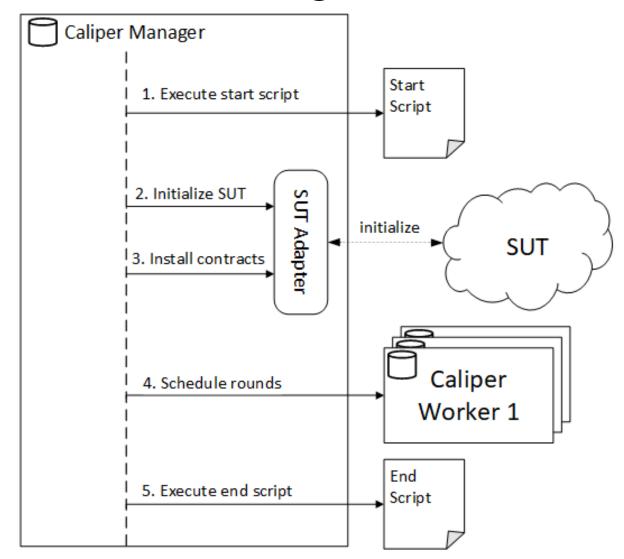

Caliper procesos

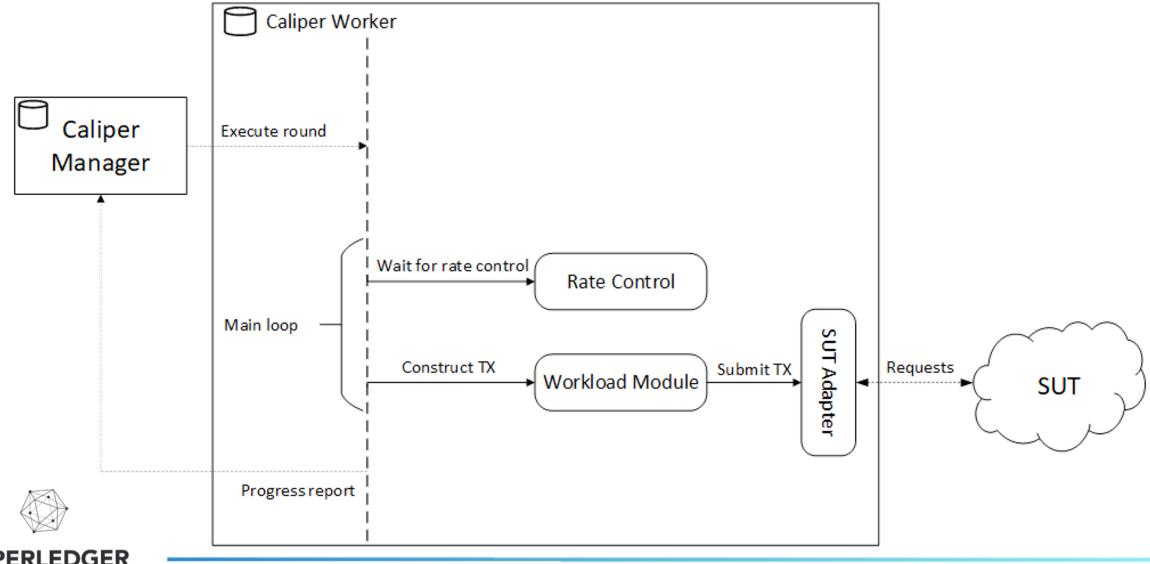

Proceso de master/manager

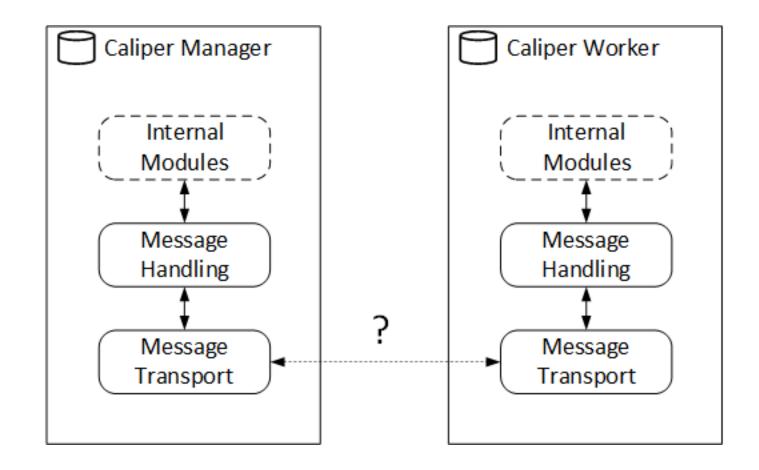

Proceso de worker

LATINOAMÉRICA

Transporte de mensajes modular

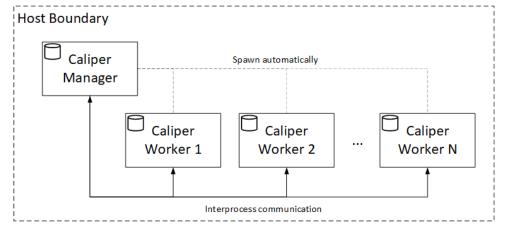

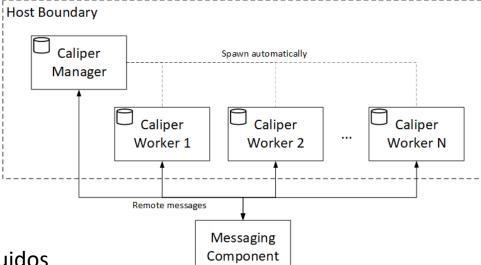

Modelos de distribución de procesos

Desarrollo

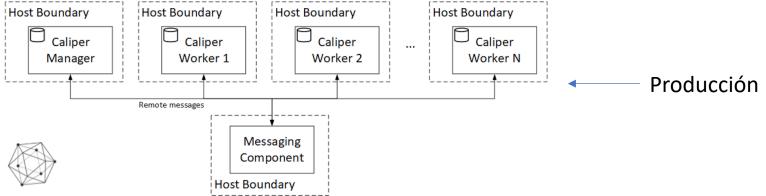

Comunicación a través de message bróker con workers locales

Comunicación a través de message bróker con workers distribuidos

Artefactos para implementar

- Runtime configurations
- Network configurations
- Benchmark configurations
 - Scenarios
 - Callbacks

Demo

Cierre del curso
